OFFICIAL PAPER OF THE CITY.

The Janesville Gazette.

VOLUME 9. JANESVILLE, WIS., TUESDAY, JUNE 6, 1865. NUMBER 89.

Janesville Weekly Gazette.

TERMS PER YEAR, - - - $2,00.
IN ADVANCE.

THE WEEKLY GAZETTE is now the largest paper printed in the State, and having the matter published in the DAILY to select from, we challenge comparison with any newspaper in Wisconsin. In correct political doctrine, in reliable market reports, in giving the latest news from all quarters, in literary merit and in local information relating to this city and county we shall spare no pains to make the WEEKLY GAZETTE worthy of public patronage and support.

The News.

The President desires Jeff. Davis shall be tried by a civil court for high treason, as a perpetual reminder that treason is our highest crime.

Gov. Brown has been released and will go home under a pledge to work earnestly for the restoration of Georgia to her allegiance.

The case of Congressman Harris will be brought before Congress. It is a question whether he will be allowed to sit in that body.

The Charlestonians have had the pleasure of calling upon the former Governor of South Carolina, under arrest for treason, and express their sympathy and respect.

A large meeting of loyal citizens was held at Salisbury, N. C., on the 18th inst., and another at Lexington on the 20th. Speeches were made and resolutions passed of a most loyal character.

The Salisbury meeting recommended a State Convention, to be held at Raleigh, June 20th, and elected delegates thereto.

An order will be issued soon for the release of all prisoners of war below the rank of Major.

The rebel forces in Texas has become thoroughly disorganized. At Houston they plundered the government storehouses, and decamped with their spoils.

Chief Justice Chase has arrived in New Orleans.

General Sheridan has assumed command of the district of country west of the Mississippi and south of the Arkansas.

General Hood came into Natchez on the 31st ult., and surrendered himself to the Federal authorities.

Judge A. D. Smith, one of the earliest settlers of Milwaukee, and for many years on the Supreme bench of this state, died recently, while on his way home from South Carolina.

Of the nine Judges of the Supreme Court, in 1861, but four remain. Judges McLean, Taney and Catron are dead; Judge Campbell, of Alabama, resigned, and took some position under the "Christian President," from which he naturally glided into the calaboose at Richmond, soon after our forces took possession of that city; Judge Daniel, of Virginia, has been lost sight of. We believe he is dead also.

Judge Catron and Wayne were the only members of the Court from the rebel States who remained true to the Union. Both lived to see the rebellion conquered, and Judge Wayne is now on a visit to Savannah, his old home, from which he was banished for nearly four years in consequence of his fidelity to his official oath.

JOHN MITCHELL TURNED UP AGAIN.—This pestilent traitor has been heard from in New York. The *Citizen* has this paragraph:

"John Mitchell late of the Richmond *Examiner*, was in town for several days this week, attending to some family business. Speaking in behalf of his late journalistic and other associates, he accepts the defeat of the Confederacy, and says there is nothing now left for the South but to acquiesce as patiently and gracefully as possible in the results of the deadly arbitrament which it courted."

THE number of troops in the Army of the Potomac and Sherman's army about to be mustered out number, according to the *National Intelligencer*, 122,310. Of these there are—

139 three year regiments of 1861	55,600
Three year recruits of 1862	20,000
22 one year regiments of 1864 and 1 battery	14,840
One year recruits of 1864	31,720
Total	122,310

A GREAT religious movement is taking place in China in favor of the Catholic religion. Hundreds of villages have become converted, and the converts exceed the capacity of the ministers to receive and baptize them. The Chinese Bishops make an earnest appeal to Catholic Europe to send more missionaries to aid in saving souls.

SEVERAL suits for damages sustained by loyal men of Tennessee at the hands of the rebels, were disposed of at the last term of the Bradley County Court, and in eight cases, damages were awarded ranging from ten to twenty-two thousand dollars.

THE canal at Dutch Gap, cut by order of Gen. Butler, allows passage for vessels drawing seven feet of water, and is now regularly used by such steamboats and other crafts as do not draw over that depth.

THE New School Presbyterian general assembly, at Brooklyn, made a final adjournment on Monday, after having appointed a committee to co-operate with sister organizations against the alleged spread of Roman Catholicism.

AN old negress at Fortress Monroe, when she heard of the assassination of the President, found consolation in ejaculating between her sobs: "Bress de Lord, dey can't kill God; dey can't 'sassinate Him!"

AN order has been issued by the Grand Master of the Free Masons in Italy to drape the Masonic lodge rooms throughout the country in mourning for the death of Abraham Lincoln.

IT is supposed that the Bloomer costume will now become very popular, as Jeff. Davis has disgraced skirts and crinoline.

THE 29th Wisconsin is to be mustered out entire.

State News.

The Madison *Journal* notices a large Second Advent meeting recently held in Dane county. The meeting was held under a large canvass tent. About four hundred people were in attendance. The sect under whose auspices the meeting was held look for the grand final catastrophe about the year 1868, or possibly a few years later. Judging from the temperature of the weather at present, the event may be even nearer at hand.——The Watertown *Republican* says frosts have nipped cherries, grapes and some smaller fruits in Jefferson county. Mr. E. R. Adams, of Ixionia, thinks he will have 700 or 800 bushels of apples.——The Manitowoc *Daily Tribune* has been suspended. Hereafter a weekly only will be issued.——A son of George Ryder, two years old, five miles north of Dartford, broke his leg, by falling from a box, last Tuesday.——James Odekirk, of Eden, Fond du Lac county, recently ploughed up a boulder of pure copper weighing 21 pounds.——The Fond du Lac *Reporter* says the Stock Growers' Association has purchased, for the sum of $4,000, Mr. Rahte's forty acres within the city limits, on Main street. A race course is to be immediately fitted up, and the grounds prepared for holding Fairs.——Dr. Asa. H. Hayes, an old and respected citizen of Barton, Washington county, died on Thursday last.——John Condon, Ex-Mayor of Portage, died of paralysis in that city last Tuesday.——The Dodgeville *Advocate* says the store of John W. Heathcock, of Linden, including the post office, was totally destroyed by fire on Tuesday morning, the 23d of May. Loss $5,000—insured for $1,100.

The Fruits of Rebellion.

Some of the fruits of the rebellion are graphically depicted by a Southern writer in the *Church Journal*. He says:

"We accept our destiny. Whether right or wrong, we are powerless to resist. Our agriculture is utterly broken up; our estates are ruined; many hundreds of our oldest and proudest mansions are in ashes; our people are homeless in the land of their birth; hundreds of our rural churches are burned; the same has been the fate of a great number of school houses and court houses. There is no description that can fully convey to you an idea of the destruction of our mills, foundries, railroads and canals. Our forests have been leveled and consumed; our fields are without laborers; our towns and cities are without trade; our people are without employment or the means of support; our wives and maidens are sick with watching by the bedsides of the dying and mourning by the graves of the dead; and thousands of our young men are either in exile or in prison."

The above is almost precisely what Alexander H. Stephens told the mad caps of Georgia would happen if they plunged the South into the gulf of secession.

Surrender of Kirby Smith's Forces.

A New Orleans correspondent says: "General Kirby Smith has been so ill during the past six weeks that General Buckner has had command of his department, this was probably the reason why General Smith remained in Texas. He is now at Galveston.

For some time past Major General Herron, commanding at Baton Rouge has been treating with the rebel General Brent for the surrender of West Louisiana to the Union forces, reporting to General Canby by telegraph. At last a meeting between Generals Canby and Brent was arranged by Gen. Herron. At the same time a conference was held at Marshall, Texas, and a surrender agreed upon. There were present Lieut. General Kirby Smith, Generals Buckner and Price and all the leading military men in the Missouri Department. Buckner and Price directed to join Brent at the mouth of Red River, and co-operate with him for the surrender of his command. When these officers arrived at the mouth of Red River, Gen Canby was in Mobile. General Herron lost no time in notifying him by telegraph. The moment intelligence was received General Canby prepared for instant departure for New Orleans. At first he proposed taking the *Laurel Hill*, but this steamer was not fast enough to suit his purpose, and he and his staff, with General Dick Taylor, left Mobile on Wednesday, at half past 4 o'clock, on the steamship *Hero*, a captured blockade runner.

The *Hero* arrived in New Orleans yesterday morning, and as soon as the *Ida May* arrived from the mouth of Red River, a conference was held, at the request of General Canby, at the corner of St. Charles and St. Joseph streets. The Union Generals present were Generals Canby and Herron. The rebel Generals present were Buckner, Price, Taylor and Brent. [Further details of the surrender have already been published.]

Gen. Farrar's recent raid, announced by telegraph several days ago, is, probably the last raid of the war. The commands of the rebel Colonel Purois and Captain Gillespie were reported at Harrisburg. General Farrar left Natchez for that town, embarking his command on boats. The rebel garrison was surprised and a number of men and horses were captured.

"General Herron has tendered his resignation and expects to return to Dubuque, Iowa, in a few weeks.

Mayor Hyde Clarke, Assistant Adjutant to General Herron, has resigned."

IN the State of Ohio the last ditch has been found by no less an ardent sympathizer with treason than Clement L. Vallandigham. He has written a letter owning that he was wrong about the war for the Union. He rejoices that slavery is destroyed and the Union saved; sees at present no reason why the democracy should not give a cordial support to President Johnson, in his effort to restore the prosperity of the country under the Constitution; and declares that without slavery the Southern States, with perhaps two or three exceptions, "will become more populous, prosperous and powerful than any other section."

THE Milwaukee *Wisconsin* records two cases of sun stroke in that city, one of them fatal.

AN INTERVIEW WITH FORREST.

His Version of the Fort Pillow Massacre.

A correspondent of the New Orleans *True Delta* describes a recent interview with the rebel General Forrest, at Meridan, Miss. Forrest, he says, is a man of fine appearance, about six feet in height: dark, piercing hazel eyes; carefully trimmed moustache and chin whiskers, dark as night; finely cut features, and iron grey hair. His form is lithe, plainly indicating great physical power and activity. The writer asked, after some preliminary questions:

"Now that you have time, General, do you think you will ever put upon paper the true account of the Fort Pillow affair?"

"Well," said he, "the Yankees ought to know; they sent down their best men to investigate the affair."

"But are we to believe their report, General?"

"Yes, if we are to believe anything a nigger says. When I went into the war I meant to fight. Fighting means killing. I have lost twenty-nine horses in the war, and have killed a man each time. The other day I was a horse ahead, but at Selma they surrounded me and I killed two—jumped my horse over a one horse wagon, and got away." I began to think I had some idea of the man at last. He continued: "My Provost Marshal's book will show that I have taken 31 000 prisoners during the war. At Fort Pillow I sent in a flag of truce, and demanded an unconditional surrender, or I would not answer for my men. This they refused. I sent them another note, giving them one hour to determine. This they refused. I could see the river boats loaded with troops. They sent back, asking for an hour more. I gave them twenty minutes. I sat on my horse during the whole time. The fort was filled with niggers and deserters from our army; men who lived side by side with my men. I waited five minutes after the time, and then blew my bugle for the charge. In twenty minutes my men were over the works, and the firing had ceased. The citizens and Yankees had broken in the heads of whisky and lager beer barrels, and were all drunk. They kept up firing all the time, as they went down the hill. Hundreds of them rushed to the river and tried to swim to the gunboats, and my men shot them down. The Mississippi river was red with their blood for three hundred yards. During all this, their flag was still flying, and I rushed over the works and cut the halyards and let it down, and then stopped the fight. Many of the Yankees were in tents in front, and they were in their way, as they concealed my men, and some of them set them on fire. If any were burned to death it was in these tents. They have a living witness in Capt. Young, their Quartermaster, who is still alive, and I will leave it to any prisoner I have ever taken, if I have not treated them well."

THE New York *Herald* says: "We would advise General Sherman to stop his controversy with Secretary Stanton and General Halleck right where it is. He has already carried it far enough.—This attacking superior officers is a dangerous thing, and is liable to lead to dangerous complications. If he is not careful he will soon find himself seriously embarrassed and encompassed with greater difficulties than that which he is trying to remove."

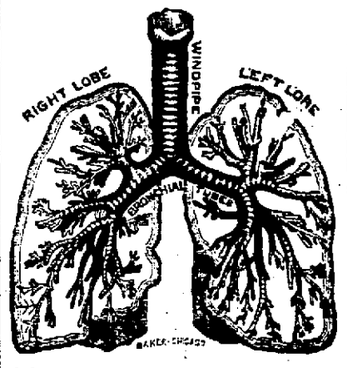
CATARRH, THROAT DISEASES!



ASTHMA, BRONCHITIS!

Early Stages of Consumption!

LIVER COMPLAINTS,

Diseases of Women!

And all other Complaints that Lead to Consumption,

Are treated by DR. HALE, at the

Wisconsin Throat & Lung Institute,

Myers' Block, Janesville,

by a *new method*, and with remedies that are eminently successful in the above class of chronic diseases.

The thinking and unbiased portion of the community will appreciate the great advantage of a permanent and reliable Institute for the cure of chronic diseases that usually baffle the skill of the general practitioner.

Catarrh, that great promoting cause of Consumption in the Northwest, always gives way upon application of the new remedies. Dr. Hale has never encountered a case of this disease he could not cure. The present season is very favorable for applying proper remedies; delays are dangerous. Your case may be cured this month, not next, to-day, not to-morrow.

All who are suffering from any of the diseases Dr. Hale makes a speciality in treating, should at least call and investigate the new system for themselves. No person of good sense and sound judgment will, without full and careful investigation, denounce as "humbug" that which claims to possess merit.

Dr. Hale takes pleasure in referring to the following responsible parties, citizens of Janesville, who can speak knowingly as to the efficacy of Dr. Hale's treatment, not to mention hundreds of others in the Northwest that have been cured:

M. Schuyler, proprietor of the Schuyler House; De witt Davis, N. G. Kenlston, D. R. Stout, F. J. Tupper Ellis Doty, job printer, J. D. Hayner, W. H. Mann, E R. Beckley, N. Rowe, John Kerr, J. F. Drake, Wm. Hyzer, Mrs. W. W. Wheeler, Mrs. C. J. Cheney, Miss Belle Shattuck, Miss N. Wiley.

The list could be extended to an indefinite length, but the above will suffice.

CITY AND COUNTY.

LUMBER.—Robert Ross has something to say to those who wish to purchase lumber.

THE slips in the Presbyterian church are to be rented to-morrow afternoon, of which those intersted will do well to take notice.

PERSONAL.—We are gratified to welcome home again our fellow townsman, H. Richardson, Esq., who has been exploring the regions of petrolia.

GOOD TEMPLAR'S LODGE.—At the temperance meeting last evening a Good Templar's Lodge was formed with a membership of twenty-five.

MRS. O'DEA & Co. have a stock of millinery which those in need should take a look at. Their rooms are over Moses Harsh's clothing store.

UNIVERSALIST STATE CONVENTION.—This organization opens its annual meeting this evening by a public service at Hope Chapel. Sermon by Rev. J. C. Crawford.

ALF. BURNETT got off a good thing last night at Lappin's Hall. He said the reason Jeff. Davis doned petticoats at last was because he had got to the *clothes* (close) of the rebellion.

THIS dry, warm, and dusty day we need something to refresh and invigorate. A delicious dish of strawberries and ice cream, such as can be had at the festival at the Hyatt House this evening, will be just the thing.

ACKNOWLEDGEMENT.—We notice among the articles contributed to the Chicago Fair, seven washing machines, contributed by the Messrs. Doty, of this city. A very handsome donation.

ALF BURNETT, kept his audience in a roar of laughter at Lappin's Hall last evening with his comicalities. His readings which form a part of his entertainment were very fine. Go and hear him to-night.

THE JANESVILLE VOLUNTEERS' UNION will meet at the office of J. Baker, Esq., next Thursday evening at 7½ o'clock. All who have been connected with the army as volunteers will find it for their interest to be present.

BY ORDER OF THE UNION.

STRAWBERRIES certainly have gone up if this dry weather continues, and about the only chances left will be to go to the Hyatt House Hall this evening and secure a dish of strawberries and ice cream.

june6d1d.

THIS weather is absolutely frightful. The thermometer in the vicinity of one hundred degrees, the high wind, the clouds of dust, the brazen sky, the boiling sun, all conspire to make the days fearful. The vegetable and animal kingdoms alike cry aloud for rain.

A TELEGRAM from Chicago says Strawberries are out of the market, can't be had for love or money. Our Hops Chapel folks have been fortunate indeed, in securing a supply for the festival at the Hyatt House Hall this evening. june6d1d

FROM WASHINGTON.

New York, June 5.—The *Tribune's* Washington special says it is not true that Jeff. Davis has been brought from Fortress Monroe. The President on Saturday told a Congressman it seemed desirable that Davis be tried by a civil court for high treason as a perpetual reminder that treason was our highest crime, and he was willing to spread before the world the secret testimony in the assassination case and trust to their verdict as to Davis' complicity.

Gov. Brown has been released and will go home under a pledge to work earnestly for the restoration of Georgia to her allegiance.

New York, June 6.—The *Herald's* Washington special of the fifth says the writer of the threatening letter was arrested to-day by Col. Ingraham's order and proved to be an insane Frenchman, who labors under the delusion among others, that the government owes him one hundred and fifty thousand dollars. If not paid by the 10th inst., he proposes to take the nation into his own hands, and obtain revenge. Although not directly stating his intention to assassinate the President, such is the inference from its tenor. He has been properly disposed of.

The appointment to the sub-Treasury in New York causes considerable difficulty. The office is so responsible a one, involving the safe keeping of such large amounts, and is so liable to losses from the variety and intricacies of its daily transactions that wealthy men are afraid to touch it. On the other hand, the knowledge it gives of the government financial policy and the consequent opportunity of operations in the street makes it desirable for speculators and politicians. Those whom Mr. McCulloch might prefer are unwilling to accept the place. The names of Mr. Hulbert, of St. Lawrence, and Lt. Gov. Campbell, are again mentioned.

It is understood here that the Draper and Weed factions have struck hands and now pull together, the object of which is to secure the former in the collectorship and place Mr. Blatchford in the sub Treasury.

Mr. Harrington, assistant Secretary of the Treasury, has actually received the mission to Switzerland. This he owes to a previous understanding with Mr. Seward, which the death of Mr. Lincoln prevented him from carrying out.

Mr. Field can go to Valparaise as consul, but he wishes the mission to Berlin. For this he is not backed up in New York, as he expected to be. He is an accomplished man, and would appear well in Berlin, where he wants to go.

A special to the *Times* dated Washington 5th, says the military commission had a secret session yesterday, and one of the reasons assigned for the session was the publication Friday last in the Cincinnati *Commercial* and copied from them by other papers, of a synopsis of the evidence taken in secret session on the first two days of the trial and known as the suppressed testimony. Some ten days ago it was determined that this testimony should be published, if possible, on Friday the 2d inst., inasmuch as there would be no session of the commission on fast day, the 1st inst., and therefore no report of current proceedings would be in the way of the publication of all the suppressed testimony in a single issue of the leading daily papers of the principal cities. For good reasons, on Tuesday last, this order as to the publication, was postponed until further developments should transpire in the trial. This morning to the surprise of Judge Holt and all others having control of the case, the newspapers contained an imperfect synopsis of the suppressed evidence. Upon inquiry it turned out that Ben. Pittman had furnished the evidence to the Cincinnati papers. This Ben. Pittman styles himself the recorder of the military commission now trying the assassins. He, in reality, is confidential clerk to Col. Burnett, the Assistant Judge Advocate, and he has charge of the sheets on which the evidence is transcribed in long hand under the superintendance of Mr. Sutton and his assistants. The Messrs. Murphy are the regular official reporters of the trial. Without authorization of any kind, Mr. Pittman made a synopsis, said to be very imperfect, and sent it by mail to the Cincinnati *Commercial*. It is said Pitman has violated the oath he was required to take upon entering on his present service. The Judge Advocate immediately on hearing what Pitman had done, ordered the publication of the suppressed testimony in full, and it was sent to the Associated Press for that purpose. What treatment Pittman will receive from the Government for this breach of official confidence, is left to speculation.

A company has been started in Richmond with Gov. Pierpont at its head to open up Virginia to emigration from the North and furnish all information necessary.

The case of Congressman Harris will be brought before Congress. It is a question whether he will be allowed to sit in that body.

New York, June 6—The *Tribune* states that Mr. Conover who was supposed to have met with foul play on account of his testimony, reached this city yesterday. The letters he referred to and thought had been suppressed by the *Tribune*, giving an account of the plot to murder the President were not received by the *Tribune*.

FROM NORTH CAROLINA.

New York, June 5.—Newbern advices state that the result of the Judicial investigation at Toronto, showing that the yellow fever there last summer, which carried off some thousands, was introduced by the infamous Dr. Blackburn, has caused the deepest sorrow.

The people of the State are fast becoming reconciled to the free labor system. There is a strong attachment between masters and their former slaves, and they seek each other, making satisfactory bargains for labor.

The universal suffrage question is exciting great interest, the people being divided only as to the time when the negro should vote.

Newbern promises to be very healthy this summer.

New York, June 6.—A special to the *Times* dated Washington 5th says: A large meeting of loyal citizens was held at Salisbury, N. C., on the 18th inst., and another at Lexington on the 20th. Speeches were made and resolutions passed of a most loyal character.

The Salisbury meeting recommended a State Convention, to be held at Raleigh, June 20th, and elected delegates thereto.

The North Carolinians evince great eagerness to re-establish a loyal government.

FROM NEW YORK.

New York, June 5.—Barbadoes paper dated May 15th, state yellow fever again raging among the crews of vessels at Demarara. Ninty-three cases were admitted to the hospital in four days, 48 terminating fatally.

New York, June 5.—Mayor Gunther has vetoed the resolution of the Common Council authorizing 25,000 copies of an eulogy on President Lincoln to be printed.

Poughkeepsie, N. Y, June 5.—Nearly 2,000 persons assembled at the depot to-night to give Gen. Sherman a welcome. When the train arrived the crowd was wild with excitement. The General spoke as follows:

Friends, I am not going to make a speech. locomotion and cars are unfavorable. I thank you all for your seeming kindness. I had the honor to be a fellow traveler with your noble regiment, the 150th New York. I understand they are soon to come home. When they arrive, they can tell you better than I can, of the events that have happened. I bid you good night. As the General entered the cars he was followed by shouts and cheers.

FROM SAVANNAH.

New York, June 5.—The steamer *Arago* brings Savannah dates of the 1st. The *Herald* says a committee of citizens has been appointed to visit Washington and represent to President Johnson the sentiments of the loyal citizens of Charles county.

On the afternoon of the 31st of May, a brig having British papers, was captured at Tybee, for an attempt to break the blockade off the port of Savannah.

Secretary Welles and party visited Savannah on the 31st and returned to Port Royal.

The Charleston *Courier* publishes a circular from Gen. Hatch, advising the planters to take contracts with freedmen and saying infirm negroes must be supported in their respective districts.

A great body of most respectable citizens waited on Gen. McGrath while under arrest at Charleston, expressing their sympathy and respect. That such an occurrance should have been permitted in the capital of the State is conclusive as to the complete moral and physical prostration of the people.

FROM FORTRESS MONROE.

Fortress Monroe, June 4.—The second portion of the Texan fleet, comprising the troops of the 1st division of the 25th corps, under command of Brig. Gen. Draper, have been resting in transports in Hampton Roads, Virginia, preparatory to sailing southward, for the past two days. Every thing which will add to the comfort and health of the troops on the long and tedious sea voyage, is being forwarded with all the dispatch possible.

Gen. Weitzel arrived from City Point yesterday, with his staff. He has selected the *Western Metropolis* for his flag ship It is supposed the whole fleet will be off before to-morrow morning. The transport fleet in the harbor is composed of the following vessels: *Western Metropolis, Glanciers, Empire City, J. P. Evensman, Louise, Tonawanda, Star of the South, Suwance, Canibina, Richmond, Beaufort, Dore, Lillie* and *Neptune*.

The steamer *Starlight* arrived to-day from Hilton Head, with A. G. Magrath ex-Governor of South Carolina, en route to Washington, under arrest.

FROM PHILADELPHIA.

Philadelphia, June 5.—Within the last 10 hours, 3,903 returned troops have been entertained at the Cooper Shops Union Refreshment Saloons, including the 5th New York, 1st Rhode Island battery, Maine artillery, 1st New Hampshire artillery, 10th battery, 9th Massachusetts battery, 2d, 3d, 4th and 6th Maine batteries, 12th New York battery, 19th Maine. 95th New York regiments, besides Pennsylvania and New Jersey regiments.

FROM CANADA.

Toronto, June 5.—The *Globe* of to-day announces the Canadian delegates in England as meeting with marked success. The policy proposed includes a basis upon which the connection between England and Canada will be rendered firm and lasting and includes measures to immensely enhance the prosperity of the country and develope its resources.

Reconstruction and Negro Suffrage.

The problem of reconstruction daily grows more and more puzzling. President Johnson finds authority for appointing military Governors, excluding certain white classes from the privileges of the ballot on account of their manifest disloyality, but there his constitutional powers seem to end. He cannot find any constitutional authority to enfranchise loyalty with a black skin. That is too much for him. By the same rule (one would think) that he excludes the white rebel from the polls, who has fought under Lee and Johnston for the overthrow of the government, he might enfranchise the colored loyalist who has fought under Sherman and Thomas for its maintenance. If the plea of public necessity be set up for the one why not make it for the other? The President's logic would need very little stretching to cover both cases.

But we are not disposed to find fault with the action of the President because he refuses to go any farther in this matter. Many good patriotic people of the North were in the habit of finding a great deal of fault with Mr. Lincoln for not moving faster than he did, but the sequel invariably proved that he did what was best not only for the country, but for the cause of emancipation. The problem of "reconstruction" as it is called, is one of the mightiest that ever challenged the attention of any people, and, as is often the case, it is much easier to growl about what is being done to solve it than to point out a better way ourselves. Our ablest and best statesmen differ very widely upon those points, and most of them must be left alone until the necessities of the case settle them for us, as other new questions have been settled by the inexorable logic of events since the war began. For our own part, we are anxious to see every person enjoy the right of suffrage who can read and write without restrictions as to color, sex, or religion. If all that is desired in this respect cannot now be obtained we will gladly accept what we can get and patiently bide our time, knowing that

> "Ever the right comes uppermost
> And ever is justice done."

When the golden era of universal suffrage comes in its fullness (as come it must) no man or woman who contributes a cent to the support of the government under which he or she may live, will be denied the use of the ballot in shaping its policy and regulating its affairs. To allow representation wherever there is taxation is democracy in one of its simplest forms, and to deny suffrage to any but criminals is not democratic at all.

But by what right or consistency do we of Wisconsin complain because the colored men of North Carolina and Virginia are not enfranchised, while we have persistently denied the ballot to the same men in our own State. We see a very large mote in President Johnson's eye, but do not perceive the beam in our own eye. The colored men of Wisconsin can nearly all read and write; they all pay a tax; they are generally intelligent, industrious, well behaved and many of them well off, while those of the South are ignorant and depraved, just released from a state of bondage that brutalizes and degrades, and they are illy prepared to exercise this high prerogative. And we say it comes with a bad grace from us, so long as we have not the moral courage to do justice to our own citizens, to clamor for the President to do arbitrarily what we refuse to do and can do legitemately. Let us set our own house in order before we trouble ourselves about our neighbors.

Letter from Pennsylvania.

BLOOMSBURG, PA., May 29, 1865.

Editors Gazette:—Your correspondent "Drawde," of Clinton, seems concerned as to my fate on account of my failure to report further news from that locality. To relieve him of any further anxiety I will inform him that I "have struck" and have commenced "running" at a fearful rate, and in my course have passed through portions of the States of Illinois, Indiana, Michigan, Ohio, New York and Pennsylvania and hauled up here where oil, iron, coal and lumber are realities instead of imagination in the brain of speculators. And now that I have run the risk of being discovered by my "boots" which "Drawde" has so modestly stepped into, thus relieving me of further duty at that post for the present, I will, with your consent, give your readers an occasional scribble, giving such of my observations as I may think interesting or profitable to those especially who are engaged in agricultural pursuits, thus endeavoring to give others some of the benefits of my "running," which I expect to continue all summer, and it may be that these dividends may be of more value than the stock of some oil companies, inasmuch as no assessments will be made except on their time and patience, to read what I may have to communicate. When I left Clinton, apple trees were not in blossom, but in passing through Ohio the next day they were in full bloom, and all along the route all kinds of fruit have blossomed and set for an abundance, including grapes, currants and strawberries. Some of the latter I saw ripe on the vines in the garden of C. Paxton, Esq., and was informed that a mess was gathered from the vines last Wednesday, being the 25th of May. I never saw vines so full of fruit as they were, which induced one to enquire of the gardener the secret of his success. His answer was, "nursing them well in winter by mulching with leaves from the forest," but for lack of leaves, as is the case on prairies, he said straw, tan or chip manure will answer, but are not as good as leaves, but in order to have good crops they *must* be protected, and my conclusion was if they needed protection here where hills and forest trees are near, it must be much more indispensable on the prairies where the winds have such an almost unobstructed sweep, and I hope my Wisconsin friends who are desirous of raising this fruit in perfection, will not forget to "nurse them in winter." As to apple orchards here, I am sorry to say I find the old orchards fast running out and but little done in the way of renewing them by setting out new ones, and my conclusion is, from what I have seen and heard, that apples are not so plenty here as they are in Rock county. I saw in passing by orchards while riding in the cars, that large numbers of the trees were stripped of their foliage and nearly destroyed by caterpillars; and I understand such is the case throughout the Eastern States where they have neglected to destroy their nests. I hope our Wisconsin fruit growers will not permit this pest to overrun their orchards, but make it a special business to destroy every nest to be found on their premises. It is bad enough to have the bark louse to contend with, but the caterpillar can easily be destroyed with a little powder and more perseverance. Winter wheat and grass are looking fine; the former headed out and promising an abundant yield. But spring grain is rather late, on account of the abundant rains which have prevented working upon the land in good season. Springwheat is not sown at all here. In this connection I will give an account of the system adopted here for improving worn out lands. In the first place about thirty bushels of unslacked lime is put upon each acre in heaps of one bushel in a place. After it is well slacked it is evenly spread over the ground and a crop of corn raised that season. Next season it is sown to oats and immediately after the oats are harvested a good dressing of barn yard manure is put on and plowed in and sown to winter wheat; early the next spring clover is sown in the wheat, and the crop of clover is left to grow and fall down the next season, and after becoming dead ripe is plowed under and next season planted to corn which generally turns out a 'right smart crop' as the phrase is here. The next season barley is sown and the clover comes up of itself, sufficient for a good crop of clover next year, which is again plowed under in the fall and sowed to wheat, when a "right smart crop" of wheat is expected, say thirty bushels per acre, worth here on an average of seasons $1.50 per bushel. In this way land that ten years ago would not produce crops that barely paid for harvesting, are brought into the highest state of cultivation, and Wisconsin farmers will soon be brought to the necessity of using the same method of renovating their fast impoverishing land, though the liming may perhaps be dispensed with on account of their land being naturally supplied to some extent, but the clover is indispensable and many are already beginning to see it. Pennsylvania farmers have the advantage of western farmers by having a nearer and better market, but there are many things in which western farmers have the advantage over them if they would only improve them. Let them for one thing encourage home manufactures, and thus save vast amounts paid for freight for transportation of necessaries which can as well be manufactured at home, and thus furnish a market for produce and save the freight of that also. Few have any idea of the vast difference it would make in the prosperity of the west. I had intended to give some description of the iron, coal and oil business of this region, but find I shall take up too much space for this communication and shall have to defer it till my next.

PETROLEUM.

Jeff. Davis.

A correspondent of the Philadelphia *Inquirer*, writing from Richmond under date of May 29th, says that the manacles were removed from J. D. on Sunday afternoon:

"During the days he was ironed Davis steadfastly refused food, eating each day nothing but a bit of bread, and yesterday Dr. Cravens said plainly to the authorities that unless he was relieved from the shackles, the prisoner would not live two days. In consequence of this representation the irons were removed late yesterday afternoon, and then Dr. Cravens is said to have further expressed the opinion that unless Davis was allowed more fresh air than he could get by constant confinement in his cell, he would not live ten days. He will live the ten days, however, for tomorrow he emerges from the casemates of Fortress Monroe, and will be sent to Washington. The gunboat *Connecticutt*, ordered from Washington for his conveyance, will arrive in Hampton Roads this morning, and to-morrow forenoon the prisoner will be conveyed on board, under strong guard. Davis certainly has shown a childishness, and temper, that is in the highest degree, disgraceful to him, and robs him of all claim to pity or respect. No great State criminal ever stood in so unenviable a light before the world. From the first moment of his capture until now he has not shown a simple sign of that fortitude, courage and dignity that have so often guilded the last hours of crime. None of this has he shown. He acts and talks like a spoiled child, whose playthings have been taken away.

HAPPILY DISAPPOINTED.—Wm. E. Brown, of the 1st Wisconsin cavalry, who lives on Clason Prairie, in the town of Beaver Dam, returned home a few days ago from Andersonville prison. He had been at home on a furlough, got married, and returned to his regiment just in time to participate in the McCook raid in Georgia, where he with a number of others of cavalry were taken prisoners to Andersonville. It seems that soon after, tidings came home that he was dead, and that one of the boys saw him buried, when his friends put on the habiliments of mourning in consequence. Their surprise, on his return home after an absence of about four months in a rebel prison, when supposed to be dead, can easily be imagined. —*Beaver Dam Citizen.*

THE slavery question in Kentucky, is likely to be pratically if not legally settled by the disappearance of the contraband altogether. Tens of thousands have gone to other states, and of those who are left, the greater portion of able bodied men are enlisting in our armies. By such enlistment their famlies become free. So it is not improbable that if the white citizens of Kentucky should resolve—in their coming election—to hold on to the odiferous carcass of a dead institution, they will be able to count only decrepid and used up old paupers for their gains. And it will serve them right.

The Old Flag at Sumter.

Ward Beecher gives the following vivid and touching account of the raising of the old Flag again at Fort Sumter:

Then came the event of all events. From a leathern bag, in which it had been brought, Hart, who, when the flag had been shot down, hoisted it again in the fierce battle of Fort Sumter; Hart, who had been a faithful servant of Gen. Anderson, and a faithful soldier as well; Hart, who had been selected to care for and keep the flag, and to prepare it on this occasion—from a leathern bag he now drew forth that precious ensign. I had scarcely thought, except in general, that it would be a glorious thing to see the old flag float again; and when he began to draw it forth from its hiding place, I looked upon it with rather an uncurious eye, rather wondering if it was torn or fretted away, or if the breeze would find that its fiber was decayed. I scarcely knew what was in me or about me. But, when one corner had been attached, and another corner had been attached, and Gen. Anderson had been handed the cords, and he had begun to draw them, and the flag had gone up; some ten or twelve feet, I looked up; and if the heavens had broken, and poured down their influences on me, I could not have been so surcharged, and so borne away, as I was in that strange and surpassing moment. For, as in a vision, the whole round circle of events came up before me. There went up that old flag; and in a second sight I saw by it men in times past, and in times to come. I dissolved, and cried like a child, like a woman, or rather, like a *man*. And I had company, for tears were falling on every side. Up it went, and up, brighter and clearer and nobler, till its stars touched the very top. Women fainted for excess of feeling. Men clasped each other in convulsions of emotion. Many prayed. Some wept. And when the flag had reached its highest point, and a few words had been solemnly and fitly spoken by Gen. Anderson, he retired some steps back. It was public, and I, therefore, may say that no sweeter scene was ever witnessed than that which transpired when his wife clasped him, and fell upon his neck, weeping, and his children gathered about him. To me it was doubly beautiful, because of the words that I had heard him speak before we left New York. His wife was a Georgian woman. Every relative that she has in the world is secession. If they should die—and neither of them is strong in health—their children would go back to the guardianship of Southern friends. And he bore his little family with him, saying, "If they see their father raise their country's flag, and witness these ceremonies, all the influences that can be brought to bear upon them will never make them false to that old flag." [Applause.] So he consecrated them; and God will ratify the consecration, and hold them firm.

Negro Suffrage.

The *Evening Post*, in the course of an able and earnest advocacy of negro suffrage—or rather of manhood suffrage irrespective of color—says:

"It is said that President Johnson does not think the colored people ought to vote. We shall believe this when he tells the people so. Mr. Chase told a different story at Charleston.'

It would have been far better, we think, to leave the President's views entirely alone until he shall see fit publicly to express them. Since they are thus spoken of, it seems urgently desirable that they should not be misapprehended.

President Johnson, as we understand him, holds that no State has ever been out of the Union—that all acts of so-called secession, and all proceedings of pretended State authorities therennder—are legal nullities, of no force and effect save as they may afford evidence of the treason of their authors. He therefore holds that the loyal voters of a State constitute the people of that State, politically, and have a right to reconstruct it whenever the hostile forces of the rebellion shall have been fully withdrawn or subverted. In such reconstruction, those who were voters under the State constitution as it existed prior to secession, and who shall be loyal to the Union and its constitution at the time of reconstruction, shall be the only legal voters, and the question of negro suffrage, or any fundamental change whatever, must be decided by them. But so far from thinking that colored people ought not to vote, we infer from a pretty full exposition of his views to which we very recently listened, that the president will exert whatever influence he believes himself fairly entitled to in the premises, in favor of such suffrage. The only ground that exists for imputing to him hostility, inheres in his conviction that loyal State constitutions are not subject to change by presidential edicts nor by orders from the War Department.

We make this statement simply to set the *Post* right and shield the president from misapprehension. Our own view of the momentous and difficult question—not of Manhood Suffrage, but the State and National rights and duties respecting it—will hereafter be given.—*New York Tribune.*

The Rebel Ram Stonewall.

Havana, May 27.—The formal delivery of the *Stonewall* to the Spanish authorities was made in the following manner: On the 19th, the Captain presented a memorial to the Captain General, stating that the repairs to the engine would require more time than he had expected, and for that, *and other reasons*, he was resolved to give up the vessel, so that the government of Her Majesty the Queen of Spain might dispose of it.

This offer being accepted, the vessel was received, according to inventory, on the 20th, being delivered up to Capt. Aguera, and the crew were paid off. The *Stonewall* was then removed to the navy yard, where it was firmly moored in the custody of the Spanish navy. The sum advanced by the government here in order to pay off the crew and other debts, amounted to $16,000, which was less than at first estimated, owing to the refusal of the Captain (T. H. Page) and the First Lieutenant (Robert E. Carter) to receive the least pay. As to whose property the ship is, that, of course, remains for discussion; it has been stated to belong to private individuals, and that also the French Consul put in the claims of the constructers as not having yet been paid.

The *Sigto* newspaper is assured by competent persons that, although as a river battery the *Stonewall* would be formidable, it is not well adapted for the sea. In spite of what has been said as to its speed, it is, in fact, a slow goer, its rate never exceeding nine miles per hour. Even in a smooth sea, its rolling prevents a certain aim. As for its capabilities of turning, which have been so lauded, they are, in reality, entitled to little praise.

THE Worcester Spy mentions that "a hangman's rope made two years ago of South Carolina hemp, to hang Jeff. Davis with, was forwarded from Worcester, Mass., to Washington, on Monday. It was made by Mrs. Parmenter, a daughter of Capt. Peter Slater, who, it will be remembered by our old residents, was the builder of the first rope walk out of Boston ever established in Massachusetts. The maker of the rope wishes to have it speedily used."

Advertising for a Wife and what Came of It.

The Toronto *Leader* gives the particulars of a matrimonial romance in which a Vermont preacher was the main character, the denouement of which was, however, anything but romantic to him. It seems that a farmer in McHenry county, Illinois, named W——, had advertised in a Chicago paper for a wife, which was replied to by a dashing young law student of Toronto, ripe for fun, under the name of Helen Christopher. A warm correspondence ensued, "Helen" imitating the hand and style of a lady anxious to make a good match, and describing herself as an orphan of respectable family connections, and of means, residing in Toronto. The correspondence was finally broken off by W——'s neglect in paying his postage, which in Canada amounts to something, and he married some one in his own neighborhood. But the sequel contains the pith of the story. W——'s father, a minister in Vermont, and a widower, by some means got hold of "Helen's" letters to his son, and being struck with her style, wrote to her with a view of marrying her himself. He told her that

"I am a minister of the gospel, am unmarried, buried a nice little wife years ago, and have no children to tax the attention of a companion. My family is provided for and off my hands. I think sometimes of discontinuing preaching, and retire to private life. My age people take to be thirty-five, though I am older. I am above the middle size of men, though not large; have perfect health and a fair position in society; my complexion is dark, with dark eyes and hair; hair not tinged with gray in the least. What makes my complexion still darker, I wear a full beard and moustache."

And queried—

"May I ask my little girl (if I may be allowed to call her so) if you are a Christian? If you have good health? What is your complexion?

Helen promptly replied, and an animated correspondence ensued, resulting in the reverend inviting himself to visit Toronto, to obtain an interview with his fair correspondent. This was rather more than "Helen" desired, and thinking it imprudent to bring the old man on a fool's errand, some six hundred miles from his "local" habitation, sent him a note over another name, pretending to have accidently found one of his letters, and to be a rival of his for the affections of Helen, and threatening him with castigation in case he should make his appearance in this city.

Rev. J. W. wrote again to Helen, disclaiming any wrong intentions, and asking if his rival should exercise any control over such a lady. She then replied that he might come, when he responded that he would be there on the 9th or 10th of May, when he expected to meet his "little girl," his "dearest Helen." He arrived on the day appointed, and sent his "little girl" a note, desiring her to meet him at a certain hour at the corner of a certain street. He went, but saw no one like the photograph "Helen" had sent him, which was the portrait of a prominent actress. But the eyes of a large party of "Helen's" acquaintances, who had been let into the secret, were upon him. He appeared sadly disappointed, being fidgetty in his movements, casting wistful glances at the passers by as he promenaded the streets, whilst his tormentors, for such they were, could scarcely contain themselves. They were at his side at the postoffice, on the street, and even talking with him at the hotel.

Not finding his "little Helen," he concluded to leave town, but "she" determined he should not go until he had learned a lesson. With his party of friends he appeared at the station, and stepping up to the reverend gentleman as he stood on the car platform, he held out his hand, shouting, "How are you, W——? How is Miss Helen Christopher?" Mr. J. W. became pale with rage, stamped his foot on the planks, and, with uplifted hands, exclaimed, "You vile rascal, how dare you play me such a trick?"

Just then the train started, amid the shouts of the merry young fellows for W. and Helen Ceaistopher, bearing off the discomfited, foolish old lover, a sadder and a wiser man, and who will probably never get a wife by advertising.

Early Shearing of Sheep.

A correspondent of the *Ohio Farmer* makes the following remark in favor of shearing sheep early in the season:

"We shear early, from the fact that from several years' experience we have found that sheep thrive better, and will clip annually more wool than when shorn late. It may be asked *why sheep shorn early will clip more wool than late shorn sheep?* My answer to this is, that an All-Wise Providence has constituted everything, animals as well as human beings, to adapt themselves to the circumstances in which they are placed. Hence, when the weather becomes warm, and the fleece becomes burdensome, Nature goes to work to throw off this unnecessary amount of clothing. The first indication of this will be seen on the belly, then the legs, and about the face, and it is not an unfrequent thing before shearing time to see an animal nearly naked. On the other hand, if the sheep is shorn early, they, for a while, require more protection, and Nature brings every power into exercise to supply the demand. Many wool-growers in Vermont have practiced early shearing for a few years past, and I believe it is generally conceded that it is better for the sheep than the old practice of late shearing. The only objection that is made is, that wool buyers are afraid to buy unwashed wool, and will sometimes take the advantage of them. If it were not for this and one more, which I have not space to mention in this article, washing sheep would soon be out of practice in this vicinity.

In closing this article, I will say that we consider it a foolish practice to wash sheep, no matter whether the shearing is to be done early or late; but our principal reason for taking this side of the question is, that the shearing may be done earlier in the season."

There are now seventy-four prisoners confined in Castle Thunder, fifteen of whom are negroes. The rest are soldiers principally deserters. A portion of the prisoners are sentenced to the chain-gang for thirty-six and ninety days. These are furnished by captain O'Brien, the commander of the prison, to Lieut. Leahe, the Chief of Police, whenever he needs their services for the cleansing of the streets, and alleys of the city.

THE legislature of Mississippi met at Jackson on the 20th, organized, and instructed the Governor to appoint Judges Sharkey, Fisher and Yerger a committee to proceed to Washington to confer with the President, and, if he consents, to call a convention, with the view of restoring Mississippi to the Union. The Legislature adjourned.

EACH DAY the crowds of eager purchasers increase at the new store of Colvin & Caswell, where dry goods are being sold at less than New York wholesale prices. It is decidedly the cheapest store in Janesville. Call and see. No charge for showing goods. june5datw3tawlw.

CITY NOTICES.

THE CULTIVATOR OF CORN.—The large amount of corn to be planted this season, renders it necessary for the producer to have some improved implement for its cultivation. To meet this demand, I am now building "*The Badger State*" gig corn planter.

After six months experimenting with different models, we have one which we are willing should be put to the test, and that it should stand or fall on its own merits. A lengthy description does not seem to be necessary. We will simply say that we are confident it will perform all that any cultivator will, and all that any farmer will require of it. It has six shovels, or four, as desired. The shovels are so arranged as to cultivate wide or narrow, shallow or deep; and they all have a very easy side motion. To say that they are made under the supervision of G. F. Lane, is a sufficient guarantee that they will be well made. In fact, they will be warranted in every respect.

The Badger State gig cultivator will be sold this season at $50 at the shop.

Call and see it at the shop one block south of the Hyatt House.

SEWING-MACHINES.—Of the many inventions and improvements of sewing-machines, none have so satisfactorily stood the test of time and service as Grover & Baker's. They have taken the highest premiums at the recent State Fairs of fifteen States; they have, moreover, received the warmest encomiums from all persons who have ever used the machines, and those who have had opportunities to compare the different styles of machines, generally prefer Grover & Baker's to any other. They do the work neatly and well, do not get out of order, and are readily adapted to any kind of sewing. We would advise our lady readers, who are in want of a sewing-machine, to call at Grover and Baker's. —*Brooklyn Standard.*

ALL THE LADIES IN JANESVILLE who are at all interested in the success of our efforts to establish a home for our returned disabled soldiers in Milwaukee, are requested to meet at the "Aid Rooms" on Thursday afternoon, June 8th, at 3 o'clock. It is hoped every patriotic lady in the city will be present or send a representative. Pleasure would scarcely call one out in the heat of the day, but we owe a duty to our brave boys who have fought on Southern battle fields to preserve us a nation and enable us to enjoy our peaceful homes unmolested by the misery of war. Shall they lack any comforts in their returned crippled condition? Come one, come all and let us show those patriotic, self-sacrificing men that we appreciate all they have done for us.

COMMITTEE.

MORRELL'S ELECTRA MAGNETIC FLUID.—It has been a settled scientific fact that disease is the result of the disturbance of the magnetic forces of the system. That being the case, the natural conclusion would necessarily be, that that which will restore a perfect circulation must be a specific. This the electra magnetic fluid effects, on applying it simply to the surface. Its powers are truly marvelous. It is indicated in all cases when there is a lack of magnetic circulation, such as rheumatism, neuralgia, palsy, bronchitis, consumption, stiff limbs, swelled joints, spasms, cramp, fits, deafness, sore eyes, scrofula, syphilis, cancers, white swelling, prolapsus and other female diseases, &c. Morrell's Magnet Salve is highly recommended for the cure of cuts, bruises, old sores and burns. If applied to a burn immediately, it will stop it from blistering, and take out the fire at once.

Prepared by Richmond & Morrell, Chicago, Illinois. For sale by E. F. Colwell, G. R. Curtis, E. Rider & Son, and C. B. Colwell, Janesville, Wisconsin,

$500 REWARD!

CLOW'S REAPER

AGAINST THE WORLD!

To the Farmers of Rock County, and to all whom it may concern, greeting.

FELLOW CITIZENS:—Many of you have heard that D. Clow of the city of Janesville, in the County of Rock and State of Wisconsin, has invented a new and curious Reaper, and many have wondered why they were not on exhibition and more extensively used. Now the secret is this. The machine was never before brought to a state of perfection, and to avoid public prejudice, the inventor choose to keep it in as narrow a compass as possible until he was satisfied that all was right. Year after year has passed away since the said inventor conceived the thought of constructing a reaper upon well known scientific principles, and to do away with the cumbrous and useless machinery so common to all others in use. And though his efforts have been attended with much opposition and large expenditures of money, he now has the consolation of knowing that his victory is complete and that the future is opening with brighter prospects than ever before anticipated.

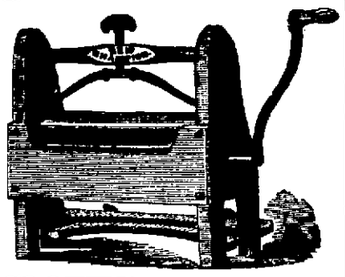
Now, therefore, you are most respectfully invited to call and see the said machine, and we trust that you will allow no selfish man whose record is full of falsehood and crime to turn you away from the truth, or divert you from your own interest. And when you are told that this or that man has used Clow's machine and condemned it, just ask them what machine there is in this broad land that has not in like manner been condemned, and if they say that this or that was not, you may justly set their names down in the catalogue of fools or knaves, and no longer worthy of confidence.

Nay, the facts are quite the reverse. There is not a Reaper in christendom that conforms in all its parts with the original design, nor yet a kind that has not been condemned to a greater or less extent. All things in the material universe are changing and so are Reapers.

Whereas, on the one hand some inventors have diligently sought to find how many wheels could be put within a wheel, or in other words how incomprehensible a thing they could get up, this inventor has taken the opposite course and sought to find how much could be dispensed with and how simple it might be constructed, and in the end he finds that he has dispensed with fifty per cent. of the weight and a great amount of useless machinery, thereby reducing it to the lightest possible draught and rendering the whole thing much more durable and substantial. And again we say call and see us.

my30dlwaw6wc62 CLOW & GUILD.

THE CHAMPION



CLOTHES WRINGER.

The only Wringer in use that is fastened to a tub by the Patent

CURVED CLAMP,

Which has an equal bearing on the tub the whole length of the Wringer, while all other Wringers are merely fastened to a SINGLE STAVE at each end. The Curved Clamp not only affords the most secure fastening of any in use, but it does not strain the tub like all other methods of fastenings. A child eight years old can securely fasten the Wringer to any size TUB, POUNDING BARREL OR BOX.

The Rollers are fastened to the shaft under HALEY'S PATENT, which is acknowledged to be the

Most Effectual Fastening in use.

The shaft being covered with cement and closely wound with strong twine, prevents the rubber from coming in contact with the shaft. If the rubber is allowed to come in contact with the shaft, the sulphur in the rubber acting on the iron soon causes the rubber to become loose, which renders the Wringer useless. This is entirely overcome by using Haley's manner of fastening, which not only prevents the Rollers from becoming loose on the shaft, but renders the use of *Cog Wheels* (used on some Wringers) entirely unnecessary. Wringers with cog wheels TURN A GREAT DEAL HARDER than those without, a fact which every one in want of a Wringer should prove by trial before purchasing one with cog wheels.

The Rollers need no adjusting to wring ordinary clothing, but to wring very heavy articles, they can be adjusted as desired, which saves much hard labor, and straining of the Wringer.

The Rollers turn in boxes of hard maple wood, which are boiled in tallow, consequently need no oiling; while Rollers that turn on iron soon rust, which cause them to turn very hard unless frequently oiled. Oil has a very bad effect on the rubber.

There is no iron about the Wringer that can come in contact with articles being wrung. Besides saving much hard labor, the Wringer will soon pay for itself in the saving of clothing.

Having been so successful in selling these Wringers, as to never have one RETURNED, I invite competition, and desire any one purchasing a "Champion Wringer," to test it with others, and if found SUPER OR to all others, keep it—if INFERIOR to any, return it, and the money will be refunded if returned within one month.

COTTSCHALK ON KNABE.

[Translated from the French.]

After having played on the Piano of Messrs. Knabe & Co., it is impossible not to bear testimony to their qualities, which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The bass is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystaline,) and I do not hesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal *if not superior* to the best manufactured in Europe or this country by the most celebrated makers.

U. S. 7-30 LOAN.

THIRD SERIES,

$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent, interest per annum, known as the

7-30 LOAN.

These notes are issued under date of July 15, 1865 and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent. COLD-BEARING BONDS

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County, and Municipal taxation, which adds from one to three per cent. per annum to their value,* according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7-30 per cent. amounts to

One cent per day on a			$50 note.
Two cents	"	"	$100 "
Ten	"	"	$500 "
20	"	"	$1000 "
$1	"	"	$5000 "

Notes of all denominations named will be promptly furnished upon receipt of subscriptions.

The notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent. instead of 7 3-10ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency. This is

THE ONLY LOAN IN MARKET

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $200,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within two months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Dr. Ione & Co.:
DEAR SIR:—Seventeen years ago I was severely injured in my back by a stick of timber falling upon me. I was induced to use your Plaster. I wore one constantly for three months and did more hard work during that three months than in the preceding fifteen years. I have not worn a plaster for over eighteen months and have had no return of the gnawing pain and weakness in my back, but have been entirely well and given to no pain whatever.
Lyons, N. Y., April 8, 1865. JOHN P. ATKINS.
We could give you thousands of names, but have not room Let the below suffice, as the medicines are administered by our agent, and if they fail you are not called on for pay. Mr Dey is under our employ by the year and he has the remedies and conveniences and will administer to all the afflicted and prescribe according to the catalogue of our treatments of diseases of all classes. Let the certificate of the below names suffice.
These are members of the 12th Wis Battery, with whom many are well acquainted in this city.
We, the undersigned members of the 12th Battery, take pleasure in recommending Dr Will Ione & Co.'s celebrated medicines, called "No Cure No Pay Remedies." Having tested their qualities for a number of diseases, we can confidently recommend them to the public as a safe and speedy cure for all diseases for which they are designed. These remedies were administered to us by S. L. Dey, their agent.

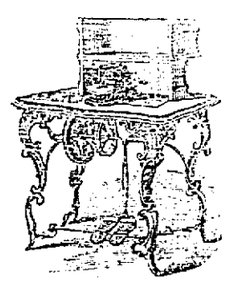
FLORENCE



SEWING MACHINE!
The only Machine making more than one kind of Stitch and having the reversible Feed Motion.
The Florence makes the Lock, Knot, Double Lock and Double Knot Stitches, on one and the same Machine. Each Stitch is alike on both sides of the Fabric.
The Operator by simply turning a thumb screw, can have the work run either to the right or left, stay any part of the seam, or fasten the ends of seams without turning the fabric, or stopping the motion of the machine.
It does the finest and heaviest work with equal facility.
It is simple and easily managed.
Is durable and not liable to get out of order.
Is unequaled in beauty of design.
It will hem, fell, braid, cord, tuck, quilt, &c.
Each Machine furnished with "Barnum's self-Sewer."

ATWOOD'S PATENT DRILLING MACHINE,
PILE DRIVER,
AND
HYDRAULIC SAND PUMP.
PRACTICAL TESTS having fully demonstrated the superiority of this machine over all others for the purpose of sinking Oil Wells, the undersigned is now prepared to receive orders for the same.
This machinery comprises everything requisite for the boring of oil wells, excepting the STEAM ENGINE AND CAST IRON DRIVING PIPE, (but will be furnished, if desired, at a reasonable price), and dispenses with the use of the Derrick Rope, Bull wheel and other cumbrous and expensive fixtures now in use, and is so arranged, being constructed on wheels and portable, that it can be easily removed for the purpose of sinking wells in different localities.
THE DETRITUS is removed from the well by our Patent Hydraulic process, and does not require the removal of the drill from the boring. This process not only removes all the detritus in from 5 to 10 minutes, but likewise effectually clears out and opens all the small oil veins that are so often entirely closed up by the old process of sand pumping.
WITH THIS MACHINE and a practical engineer a well can be sunk from 400 to 600 feet within a period of from 15 to 30 days after the soil pipe has been driven
Arrangements are being made for the construction and delivery of these machines at New York, Norwich Newburg, N. Y., and Pittsburg, Penn.

DIABETES,
STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING,
IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS, CATARRH OF THE BLADDER,
STRANGUARY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise A single dose has been known to relieve the most urgent symptoms.
Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS
Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER
has proved itself equal to the task that has devolved upon it.

DIURETICS
Irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.
We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.
Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.
That disease known as FALLING OF THE WOMB which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases, be removed by the medicine.
There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can not enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flushes of Heat, Languor, Lassitude, and Dimness of Vision.

SUPPRESSED MENSTRUATION,
Which in the unmarried female is a constant recurring disease, and through neglect the seeds of more grave and dangerous maladies are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chronic, the patient gradually loses her appetite, the bowels are constipated, night sweats come on, and *consumption* finally ends her career.

INCREASE OF RATS.—The *Farmer's Gazette* (English) asserts and proves by figures that one pair of rats will have a progeny and descendants no less than 661,050 in three years Now, unless this immense family can be kept down, they would consume more food than would sustain 65,000 human beings.

RATS *versus* BIRDS.—Whoever engages in shooting small birds is a cruel man; whoever aids in exterminating *rats* is a benefactor. TWELVE YEARS AGO

HOSTETTER'S STOMACH BITTERS was struggling into notice against the prejudices which everything new, however excellent, is doomed to encounter:

TO-DAY

it stands at the head of all the tonic and alterative preparations in existence. Its celebrity has evoked many imitations but no rivals. Physicians pronounce it the ONLY SAFE STIMULANT that has ever been introduced into the sick chamber. In the Hospitals of the Army and Navy, the surgeons find it the very best tonic for convalescents, and report it as invaluable for sustaining the vigor of troops on the march, as a remedy for scurvy and all scorbutic affections, and as the only specific for sea-sickness. California and Australia have emphatically indorsed it as the MINERS' MEDICINE par excellence, and in Spanish America and all the tropical climates, it is considered the only reliable antidote to epidemic fevers.

There is no mystery about the causes of its success; It is the only stomachic and alterative in which are combined the grand requisites of a mild, pure, and unvitiated vegetable stimulant, with the finest selection of tonic, anti-bilious, anti-scorbutic, aperient, and depurative herbs, plants, roots, and barks that have ever been intermixed in a medicinal preparation.

The Bitters have this distinctive quality, which is not shared, it is believed, by any tincture or extract in the world; they do not excite the pulse though they infuse a wonderful degree of vigor into the nervous system, and strengthen and sustain the whole physical organization.

It is also proper to state that the Bitters are sold exclusively in glass, and never under any circumstance by the gallon or the barrel. Impostors and imitators are abroad, and the only safeguard the public have against them is to see that the Bitters they buy bear the engraved label and note of hand of Messrs. Hostetter & Smith, and the government stamp over the cork of the bottle. ju1dawlw

This Company was organized in 1850 and is one of the most popular and successful Life Insurance Companies in the United States.

It was the aim of the Corporators to fill a want in the community by organizing an Institution which should embody the stability of a purely stock Company with the advantages of a Mutual system, declaring all profits to the insured.

DIVIDENDS GUARANTEED,

and paid to the assured annually, thus greatly reducing the amount of premiums.

The amount of Dividend returned to the assured each year, determines the rate of premium per annum.

A Bona Fide Security of $170 for every $100 of Liabilities.

ENDOWMENT PLAN.

This is a non-forfeiting plan, whereby the advantages of Life Insurance are combined with those of a savings' bank. By this mode a policy is made payable to the assured on his attaining a given age, or should he die previous to that age, to his representatives at his death—thus making provision for old age, and at the same time securing, beyond contingency, the full amount of insurance to one's family, in the event of early death.

This plan of insurance is becoming deservedly popular, and has received the unqualified approval of our best business men and financiers.

NON-FORFEITURE PLAN.

Premiums all paid in ten annual payments, securing a proportionate amount of the whole sum in a paid up policy, should circumstances make it necessary to discontinue further payments of premium at any time.

Policies issued in all the various forms, and to apply to all the diversified relations of life.

A large amount of former premiums now invested in first class bonds and mortgages in Wisconsin.

All future premiums received in Wisconsin will be re-loaned here.

That will bring Ample Return.

IT WILL WASH FROM ONE TO TWENTY PIECES AT ONCE!

Our machines are as perfect as ever any machine will be. They will wash in the most perfect manner all fabrics from a collar to a blanket, with the greatest ease. They will not only save three fourths of the labor and soap, but garments will last twice as long when washed in them.

A Bank-bill can be placed in the machine with a dozen dirty collars, and the collars washed clean, without doing the least injury to the bill. It is the simplest as well as the cheapest machine now in use.

The washing is entirely under the control of the operator, so that dirty parts of a garment can be washed without unnecessarily rubbing the clean parts. This machine can only be appreciated by seeing it in operation. Now on exhibition and sale by

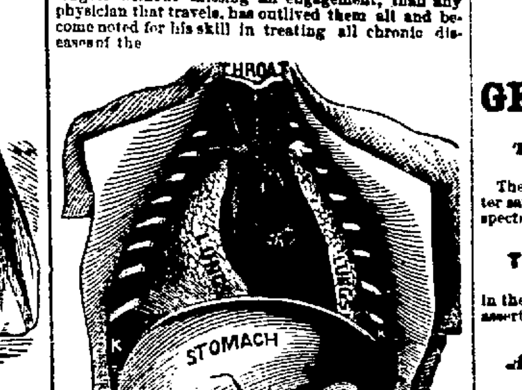
OBSERVE WELL

The Noted Analytical Physician,

DR. V. CLARENCE PRICE.

The only Physician of his kind in the West, has met with the greatest success, gained a better reputation, effected more complete cures, visited places the longest without missing an engagement, than any physician that travels, has outlived them all and become noted for his skill in treating all chronic diseases of the



head, nerves, kidneys, bladder, womb and blood, affections of the urinary organs, gravel, scorfula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

Our practice, not one of experiments, but of twenty years standing, founded on the laws of Nature, with years of experience and evidence to sustain it. Do not tear down, make sick to make well, no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed, no guess work, but knowledge gained by years of experience in the treatment of these diseases exclusively, no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, or cure everybody, but do claim to reason and common sense. We invite the sick, no matter what their ailment, to call, investigate before they abandon hope, make interrogations and decide for themselves, will cost nothing as consultation is free. This is the fifth year that I have visited this place and I shall make my visits for years regularly on the same days of the week every eight weeks.

I can be consulted at Janesville, Hyatt House, on Saturday and Sunday, the 22d and 23d of July, 1865, Woodstock Exchange Hotel, 24th of July.

READ WHO SAYS SO:

From the Hon. Thomas B. Florence.
From the Hon. Thomas B. Florence.
From the Hon. Thomas B. Florence.

WASHINGTON, Jan. 1st, 1864.

Gentlemen:—Having stated it verbally to you, I have no hesitation in writing the fact, that I experienced marked benefit from your Hoofland's German Bitters. During a long and tedious session of Congress, pressing and onerous duties nearly prostrated me. A kind friend suggested the use of the preparation I have named. I took his advice, and the result was improvement of health, renewed energy, and that particular relief I so much needed and obtained. Others may be similarly advantaged if they desire to be.

Truly your friend, THOMAS B. FLORENCE.

From **John S. Withersham,** Esq., firm of Withersham and Hutchinson, the celebrated manufacturers of Fancy Iron Works, 259 Canal street:

I am the recipient from you of one of the greatest favors that can be conferred upon man, viz., that of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Diarrhoea.

During the long time I was suffering from this disease, I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to try Hoofland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated.

I often inwardly thank you for such a valuable specific, and, when I have an opportunity, cheerfully recommend it, with full confidence in its reliability.

Truly yours, JOHN S. WITHERSHAM.

New York, Feb. 2, 1864.

From **Julius Lee,** Esq., firm of Lee & Walker, the most extensive Music Publishers in the United States, No. 722 Chestnut street, Philadelphia.

February 8th, 1864.

Messrs. Jones & Evans—Gentlemen: My mother-in-law has been so greatly benefitted by your Hoofland's German Bitters that I concluded to try it myself. I find it to be an invaluable tonic, and unhesitatingly recommend it to all who are suffering from dyspepsia. I have had that disease in its most obstinate form—flatulence—for many years, and your Betters has given me ease when everything else had failed.

Yours truly, JULIUS LEE.

From the Hon. Jacob Broom.

PHILADELPHIA, Oct. 7th, 1863.

Gentlemen:—In reply to your inquiry as to the effect produced by the use of Hoofland's German Bitters in my family, I have no hesitation in saying that it has been highly beneficial. In one instance, a case of dyspepsia of thirteen years' standing, and which has become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequalled tonic and sincerely recommend its use to the sufferers.

Truly yours, JACOB BROOM, 1707 Spruce.

From **Rev. W. D. Seigfried,** Pastor of the 12th Baptist Church:

PHILADELPHIA, December 26th, 1863.

Messrs. Jones & Evans—Gentlemen: I have recently been laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested but without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters induced me also to try them. I must confess that I had an aversion to Patent Medicines, from the "thousand and one" quack "Bitters," whose only aim seems to be to palm off sweetened and drugged liquor upon the community, in a sly way, and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Very respectfully yours, W. D. SEIGRIED, No. 254 Shackamaxon Street.

From the **Rev. Thos. Winter,** D. D., Pastor of Roxbury Baptist Church:

Dr. Jackson—Dear Sir: I feel it due to your excellent preparation, Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. I did so, and have experienced great and unexpected relief; my health has been very materially benefitted. I confidently recommend the article where I meet with cases similar to my own, and have been assured by many of their good effects.

Respectfully yours, E. WINTER, Roxbourough, Pa.

From **Rev. J. S. Herman,** of the German Reformed Church, Kutztown, Berks county, Pa.

Dr. C. Jackson—Respected Sir: I have been troubled with Dyspepsia nearly twenty years, and have never used any medicine that did me as much good as Hoofland's German Bitters. I am very much improved in health, after having taken five bottles.

Yours, with respect, J. S. HERMAN.
